

Layout probléma

Sziasztok,

nem boldogulok egy layouttal.

A fényképez ikont szeretném JOBB oldalra, az SMS fölé egy vonalba igazítani, de nem megy. Ja és a mérete is összement, akkorának kellene lennie mint az SMS: [clientedit.xml](#)

The screenshot shows a mobile application interface with a black background. At the top, there is a status bar with icons for 3G, signal strength, battery, and the time 5:55 PM. Below the status bar is a header bar with the text "ügyfél" in white. The main content area contains several input fields and icons:

- Kliens neve**: A label above two input fields. The first field contains "vezetéknév" and is highlighted with an orange border. The second field contains "keresztnév".
- Telefonszám**: A label above an input field. To the right of the input field is a blue telephone handset icon.
- e-mail**: A label above an input field. To the right of the input field is a red and white envelope icon.
- cím**: A label above a large input field.

At the bottom of the screen, there is a navigation bar with three icons and labels:

- vissza**: A grey icon of a door with an arrow pointing out.
- törlés**: A grey circle with a white 'X' inside.
- mentés**: A grey icon of a floppy disk.
